

AIRFREIGHT detailed information

IMPORT

We can arrange import airfreight from anywhere in the world using our network of agents to arrange contact with your suppliers and have your procurements picked up and air freighted to Belgium.

Customs & Duties:

We have all necessary permits to customs clear perishable goods as well as high priority and critical shipments 24/7/365. We handle customs clearance, airline handling, airport transfer fees, storage, import duty/VAT, fiscal representation, T1/T2- documents, excise duty, as well as managing bonded warehousing and road transport to destinations. We are connected to the SADBEL and NCTS network and soon the PLDA network.

Cross Trading:

Shipments do not have to be destined for Belgium; we can arrange shipping to any destination you require handling all import formalities for the shipment's destination.

Bonded Warehousing:

We can arrange bonded warehousing and remote transit shed facilities at all airports in Belgium catering for either long or short stay. As an independent agent we can adapt our most flexible facilities to your specific requirements which can be related to temperature, humidity or any other environmental controls, container handling or security.

Authorities, Government agencies:

All authorities involved: customs, Veterinary Inspection Services and Ministry of Agriculture (merged into the Federal Food Inspection & Safety Services) are gathered under one roof in our [specialized apron-linked warehouse](#), all having their own offices and laboratories inside the center, which complies with the latest EU-regulations, and allowing inspections being done while the products are being handled, stored or processed for distribution, gives the insurance of an uninterrupted cool chain and adequate monitoring of the different steps to be undertaken.

Assembly & Distribution:

We can manage complex logistics operations including foreign assembly, import including customs formalities and distribution.

Inbound Consolidations:

We can offer inbound consolidations to Heathrow and a number of other airports allowing us to offer very competitive freight rates.

Project Management:

For complex import shipments we offer a comprehensive project management service catering for the integration of a whole range of services such as air-side supervision, packing, pallet building, distribution, integration of multiple transport routes including road, sea and rail, as well as tour management.

Door to Door:

Depending on our customers requirements we can manage shipments in part or full transit lengths, from door to door or airport to airport or any other combination. We have offices at all Belgian airports.

Rates:

We offer a range of rates based on service requirements catering for priority, standard and economy shipments as well as specials.

Reporting:

We offer full reporting to client specification. We aim to provide the very highest levels of service detailing all elements of the movement from temperature control, insurance, customs tariffs, carrier fees, packaging requirements and other legal and safety issues.

EXPORT

Overview:

We offer a complete air freight export service to our customers including advice on shipment methods, arrangement of bookings on scheduled passenger & freighter flights, full & split charter flights, and securing foreign import documents and services. We cater for all manner of airfreight export movements from single documents to the development of long term, high volume regular cargo arranging both consolidations and direct air shipments. We have particular experience in the shipment of perishable cargo, high value items, dangerous goods, medical supplies breakdown parts, personal effects and pets and general cargo.

Export:

We have an expert knowledge of export formalities both from the Belgium as well as import/export requirements for most other countries. We not only look for the most available and timely routes available but also consider variations in customs duties and taxes at foreign entry points to ensure maximum efficiency in the service. We handle specials, out of gauge shipments, food products, hazardous goods, as well as regular consignments. There is nothing we cannot handle.

IATA and FIATA:

As an IATA and FIATA registered & approved agent you can expect the highest level of service as well as adherence to all international shipment procedures, guidelines and recommendations.

BDGCA list of regulated agents:

We are on the BDGCA (Belgian Directorate General Civil Aviation) security listing allowing us to transfer goods by air to any destination in the world from Belgium with the approval of the Belgian Government.

Cross Trading:

Cross border services are our speciality. We manage shipments from all locations around the world through our extensive network of contacts, including assembly and consolidation consignments. We also take care to ensure that supplier details are not disclosed to your customers where appropriate, and handle all consular documentation. Nothing is too complex for us.

Agent Network:

We have an extensive network of contacts on the ground around the world with which we work closely on a regular basis to ensure local formalities are addressed, that correct export tariff classifications are applied to your products and that local issues are dealt with expediently.

Couriers:

For small or urgent items we can arrange export by courier or hand carry services offering door to door shipment and guaranteed 24 hour global deliveries.

Reporting:

We offer full reporting to client specification. We aim to provide the very highest levels of service detailing all elements of the movement from insurance, customs tariffs, carrier fees, packaging requirements and other legal and safety issues.

Packaging:

We can provide a range of packaging services including pallet loading and the loading of standard airfreight rigid containers, making all suitable arrangements for export declarations and identification to international standards.

Storage:

We can arrange warehouse storage en-route including bonded warehousing services.

Ground Services:

Where required we can also arrange ground transport from airports to final destinations, from airports to airports as well as to seaport terminals.
